Thanks Stefanie, and hello Juan and Frank. As you'll see on this email chain below, the HHWNC Board approved \$2,500 or sent to RAP for the express purpose aiding in the design and implementation of security lighting in Smith Park. We are looking for cause, and it seems the next step is a draft plan by RAP which we can then share with stakeholders and city departments to know a reasonable timeline for the production of a draft plan?

Anastasia / Jeff - you mentioned that there was prior feedback from stakeholders / neighboring apartment residents. Beyond new security lights shining into their windows, was there a feedback document compiled that we can re-circulate to Juan and Frank?

Thanks all!

Hi Alice - following up! If I understand the history of this issue correctly, the goal of the June meeting was for RAP to receive input from the following parties:

- HHWNC
- Outpost HOA
- Adjacent apartment dwellers
- LADWP
- LAPD
- CD 4
- CD 13

Jeffrey, I've reviewed the minutes from the meeting you sent me, but I'm not seeing any conversation related to this

It looks like, a check for \$2,500 was previously approved by HHWNC board and sent to RAP specifically to assist in this lighting, but to date no lighting draft plan has been created.

Before we loop all of these parties back together, does it make sense of RAP to draft a lighting proposal which can be input given?

Thanks all!
